

The Industry Opportunity

- Spacetalk are providing an innovative solution to address a multi billion dollar health care challenge.
- Over 155,000 falls happen every year, highlighting the importance of round the clock care.
- Seniors at times can wander and get a little disorientated, Spacetalk Life can help solve this with location tracking and set up safe zones.
- 2 in 3 people aged over 65 fall at least once per year in and around the home

Who is Spacetalk?

Spacetalk is an ASX Listed (ASX:SPA) innovative technology business that has kept over 2 million families safe for the last 20 years.

Our Mission is to keep families safe at every stage of life, with a range of products to suit different stages in life. Including kids watches, mobile sim only plans, and seniors smartwatch devices that are connected to the Spacetalk App.

What is Spacetalk Life?

Spacetalk Life, an intelligent MPERS device with smartwatch technology. The watch includes fall detection and other safety features, plus 24/7 monitored emergency services. It's not just about reacting to emergencies, it's about proactively monitoring and improving health outcomes over time — A safe way to live independently while staying connected to help 24/7.

FEATURES

24/7 connectivity that's simple to use:

- 1. Fall or SOS detected**
You have 30 seconds to let your device know you're okay, or Life will alert your 24/7 monitoring team.
- 2. 24/7 monitoring alerted**
Your monitoring team has been alerted to your location and event details, and will call you to connect you with help.
- 3. Emergency help on the way**
Your care networks and emergency services are contacted by your 24/7 monitoring team if needed.
- 4. Health info displayed**
Your watch will auto-display your medications, allergies, and health data on screen, allowing health professionals to give you the care you need.

MPERS devices have never been this clever
